

1	IDENTIFICATION											
2	Tag No.											
3	Line No. or service											
4	GENERAL CHARACTERISTICS											
5	TYPE OF FLOWMETER											
6	Liquid to be metered											
7												
8	Flow rate max/nor/min			/			/			/		
9	Units of flow measurement											
10	Accuracy											
11	Viscosity cps @ °F/°C											
12	Specific gravity (water is 1)											
13	Is liquid corrosive											
14	Operating pressure max/nor/min			/			/			/		
15	Unit of press. Measurement											
16	Oper. Temp max/nor/min			/			/			/		
17	Unit of temp measurement											
18	SERVICE continuous or intermittent											
19												
20	Flow direction Left to right											
21	Right to left											
22	Top to bottom											
23	Bottom to top											
24												
25	Flange connection											
26	Flange rating and size											
27	Remote readout system :											
28	- totalization											
29	- indication											
30	- recording											
31	- controlling											
32												
33	SUPPLY VOLTAGE											
34												
35	OUTPUT											
36												
37	ACCESSORIES											
38	- strainer											
39	- pulse generator											
40	- power supply											
41	- signal convertor											
42	- cable											
43	- grounding electrode											
44	- Pre-amplifier											
45	Minimum Conductivity of Fluid											
46	Liner material											
47	Body material											
48												
49												
50												
51	ITEM											
52	MODEL											
53	MANUFACTURER											
54	REMARKS
